---

Mōrena tātou,

Thanks for the great discussions yesterday.

Attached is a set of screenshots from our AI learning module. Its run in our Learning Management System and I can't see any easy way to export in a meaningful way – so screenshots it is! Note that there are videos and sound in the original, so what I've attached is just giving a sense of it.

This module is targeted at education around responsible use of generative AI in the work setting, albeit a lot of it applies in personal settings too.. and is underpinned by our AI policy (also attached for convenience).

We're happy to offer a session to cover the development of our AI policy and a further demo of the learning module if people are interested – just let me know.

Cheers

Aj
