3 Settlement

3.1 Unless otherwise agreed by the parties, the Settlement Date for the disposal of the Freehold Land to the Holder by freehold disposal will be the day that is TEN (10) working days following the day on which Land Information New Zealand notifies the Commissioner that the Final Plan and a copy of this Proposal are registered in accordance with the Act.

duplicate copy of the Lease) and any new mortgage documents to be registered against the certificate of title to be issued for the Freehold Land so that the certificate of title for the Freehold Land will issue subject to the encumbrances provided in this Proposal. Any new mortgage will be registered after any other encumbrances such as any easements and/or covenants are registered.

- 9.5 If required by the Mortgagee, the Commissioner will provide an undertaking that, subject to the provisions of clause 7 being satisfied, the Commissioner will register the discharge of the Mortgage and register any new mortgage against the certificate of title for Freehold Land at the same time as the certificate of title for the Freehold Land issues.

- 10.2 From the date that a certificate of title is issued for the Freehold Land the Lease is deemed to be surrendered and, subject to clause 10.3, the Commissioner releases and discharges the Holder from the performance and observance of all covenants, conditions and obligations under the Lease.
- 10.3 The release and discharge in clause 10.2 is without prejudice to:
- (a) the rights, remedies and powers of the Commissioner contained in the Lease (except as varied in accordance with clause 12.1(b)); and

- 11.2 The Commissioner will erect the fencing referred to in clause 11.1 according to the specifications in Appendix 3. The ongoing maintenance of the fencing referred to in clause 11.1 will be under the terms of the Fencing Act 1978.
- 11.3 If the Commissioner has not completed any fencing as set out in Appendix 3 by the Settlement Date, the Holder agrees that the Commissioner may register a covenant, on terms entirely satisfactory to the Commissioner (in the Commissioner's sole discretion), over the Freehold Land to enable the Commissioner to complete such fencing. The Holder will do all things necessary (including signing any document) to enable the Commissioner to register such a covenant.

Schedule Two: Provisions relating to the Schedule Two Land

1 Details of designation

- 1.1 Under this Proposal the land shown edged in pink and labelled "CA1", "CA2" and "CA3" on Plans 1 of 3, 2 of 3 and 3 of 3, being 21,037 hectares (approximately), is designated as land to be restored to or retained in Crown control as conservation area subject to:
- (a) the granting of the concession over the land shown edged in pink and labeled "CA1", "CA2" and "CA3" on Plans 1 of 3, 2 of 3 and 3 of 3, substantially as set out in Appendix 4.

2 Information Concerning Proposed Concession as set out in Appendix 4

2.1 Description of the proposed activity:

Area CA1

- Grazing Concession for sheep and cattle to allow for the continued grazing of the area by sheep and cattle over an area which has been traditionally farmed by the lessee.
- Tourism Concession to permit the carrying out of a wide range of commercial tourism activities over the land including guided tramping, horse trekking, guided hunting, thar hunting, mountain biking, ski touring, heliskiing, helicopter tourism, and air flights. This expands on the existing tourism operation already run on the property by a company associated with the lessee.
- Commercial Filming and Photography Concession to permit the business of commercial filming and photography.

Area CA2

- Tourism Concession to permit the carrying out of a wide range of commercial tourism activities over the land including guided tramping, horse trekking, guided hunting, thar hunting, mountain biking, ski touring, heliskiing, helicopter tourism, and air flights. This expands on the existing tourism operation already run on the property by a company associated with the lessee.
- Commercial Filming and Photography Concession to permit the business of commercial filming and photography.

Area CA3

- Tourism Concession to permit the carrying out of a wide range of commercial tourism activities over the land including guided tramping, horse trekking, guided hunting, thar hunting, mountain biking, ski touring, heliskiing, helicopter tourism and air flights. This expands on the existing tourism operation already run on the property by a company associated with the lessee.
- No public hunting. This area prohibits all public hunting activities on the front face of the Sinclair Range.
- Commercial Filming and Photography Concession to permit the business of commercial filming and photography.

2.2 Description of area where proposed activity to be carried out and proposed status:

Part of Mesopotamia Pastoral Lease being situated in the Land District of Canterbury and identified as areas CA1, CA2, and CA3 on Plans 1 of 3, 2 of 3 and 3 of 3.

Area CA1 is located on the northern faces between Big Spur and Alma Spur and covers the area from the river flats to the 1000 asl line.

Area CA2 covers the majority of the conservation area and includes the Black Mountain Range, Brabazon Range, Two Thumb Range and the southern and western slopes of the Sinclair Range.

Area CA3 is located on the eastern slopes of the Sinclair Range and covers the area between Forest Creek and Bush Stream running from the ridgeline down to the proposed freehold boundary.

2.3 Description of potential affects of proposed activity and any actions proposed to avoid, mitigate or remedy any adverse affect

Area CA1 The area covers an area of hill slopes that has traditionally been farmed by the lessee. Grazing has been a component of this area for the last 150 years. The grazing concession limits grazing to 300 stock units only by sheep and cattle. The grazing of sheep and cattle in the area previously has had limited effects on the significant inherent values present and a reduction in grazing numbers should ensure that the effects are minimised provided the conditions of the grazing concession are maintained. The concession document provides for an environmental monitoring clause to enable all environmental effects to be monitored. The potential effects of the Tourism activities and Commercial Filming and Photography are described under Area CA2.

Area CA2 This area is already used for Commercial Tourism by the lessee operating under the existing Station Air Limited recreation permit. The new tourism concession and commercial filming and photography concession will enable the existing activities to continue and allow for future expansion of the tourism opportunities and commercial filming and photography opportunities. There have been minimal effects on the values of the area under the current recreation permit and provided the conditions of the tourism concession and commercial filming and photography concession are maintained, minimal effects to the values in the area would be expected. The tourism concession provides for limits to numbers for the various tourism activities and both concession activities contain environmental monitoring clauses to enable environmental effects to be monitored.

Area CA3 The potential effects of the tourism concession and commercial filming and photography concession covering this area are described in Area CA2 above. This area also contains the provision that there will be no public hunting in the area. This provision is included to allow for the safety of the concessionaires deer farming operation on the adjoining freehold land and the hunting block on the adjoining proposed freehold land. The concessionaire will continue with their controlled commercial hunting activities in the area.

2.4 Details of the proposed type of concession:

A Concession Licence for Grazing, Tourism Activities and Commercial Filming and Photography under S. 17Q (1) Conservation Act 1987.

2.5 Proposed duration of concession and reason for proposed duration.

Proposed duration: 30 years.

Grazing Concession - 30 years from settlement date with no right of renewal.

This concession is important to the farming operation of Mesopotamia Station Ltd for grazing of sheep and cattle in line with their current practices. The concession needs to be for an extended period to give the holder some ability to plan for the future, primarily because Mesopotamia is relinquishing a vast area of grazing land in order to facilitate this agreement with the Crown.

Tourism Concession – 30 years from settlement date with no right of renewal.

This concession is to replace the current recreation permit held by the Station Air Limited and allow for diversification in to the tourist opportunities available. The concession needs to be for an extended period to allow for the holder to plan for the future and the diversification of the property away from traditional farming activities and in to tourism.

Commercial Filming and Photography - 30 years from settlement date with no right of renewal.

This concession is to allow for diversification in to the commercial filming and photography opportunities available. The concession needs to be for an extended period to allow for the holder to plan for the future and the diversification of the property away from traditional farming activities and in to other activities.

2.6 Relevant information:

Mesopotamia Station Limited has entered into this review voluntarily. The proposed concessions are needed for the continuance of existing activities on the property and the diversification of the property following the completion of tenure review. Mesopotamia Station has farmed the property successfully for a significant number of years and will be able to build on their knowledge of the property in its diversification into other activities. The proposed activities will have minimal impact on the area.
