Photo # 1. This aerial photo shows the legal road coming up from Mt Barker Road to point (b) on the designation map. It also shows the only sensible route across the gulch to reach the boundary fence. The proposed route following the fence around the bottom of the gulch is not at all reasonable. Also there is very little room on the proposed 10m easement between the fence and the gulch. However it will require a cutting to be made to get into and out of the gulch, but if machinery is being used to form a track up the boundary fence on the 150m strip this should be no problem. (See also the attached plan)

Photo # (3) A very old kanuka - could be up to 80 or more years old

Photo # (4) Younger kanuka plants

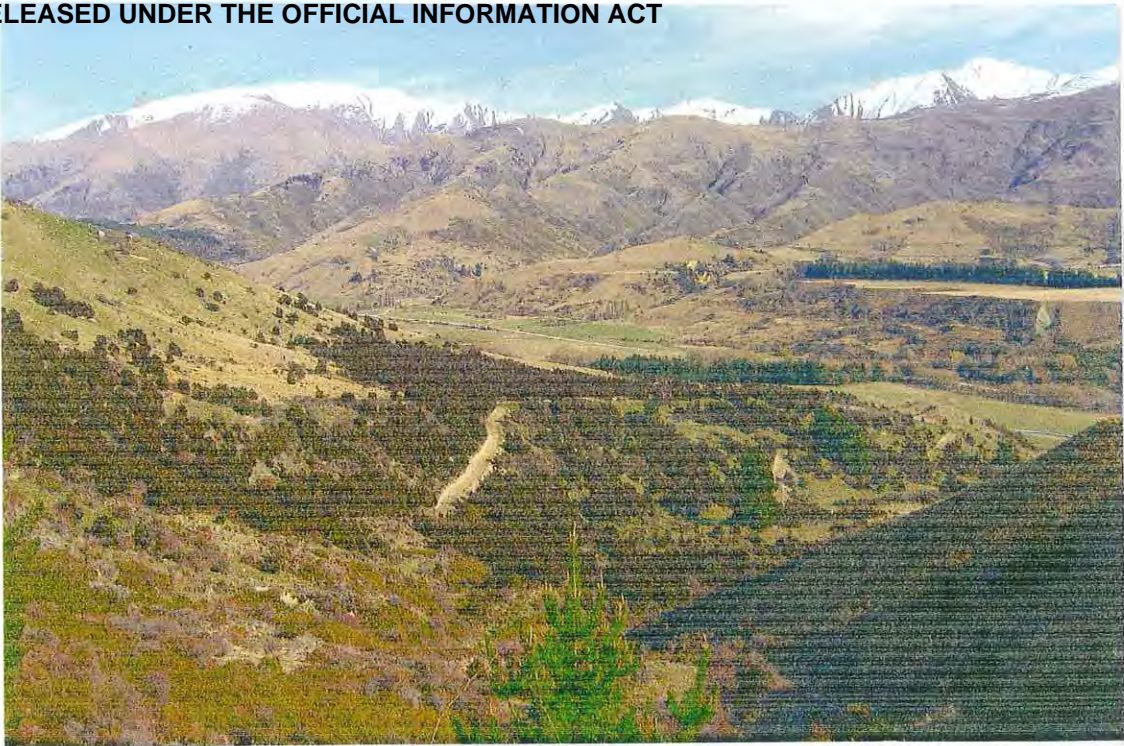

Photo # (5) Shows a larger stand of kanuka south of CC1 also well worthy of protection

Photo # (6) Shows short tussock grasslands on lee side of lower spurs
