Kia ora James,

We currently have two consent applications in process for the use of land for farming, and the use of water for irrigation at 252 Kerrytown Road. These applications have been made by Peter Scott and Dirragh Farms. I understand there is also a licence to occupy in process with LINZ which has been ongoing for some time.

We are unable to progress these applications to decision until we receive written approval from LINZ that land in the application associated with LINZ is able to be used for farming. This written approval is the only outstanding matter for these applications and I understand my team have followed up on the status of LINZ approval over the years but it has not yet been resolved.

Is it possible for you to please confirm that LINZ provides approval for the land to be used for farming so we can resolve our applications from our end.

Kind regards,

Aurora
